Eidgah R/A, Sadar, Dinajpur-5200, Bangladesh

https://www.linkedin.com/in/nie b-hasan-neom-72b604201/

https://github.com/NiebHasan077

TECHNICAL SKILLS:

- C++, Java, Kotlin, Python
- PHP, HTML, JavaScript, CSS
- MySQL, SQLite, PostgreSQL, NoSQL
- Linux, Windows, Android
- Android Studio, Intellij, CodeBlocks, Toad, Visual Studio Code, Latex, DataGrip
- Gradle, Maven
- Jira
- Git and GitHub
- Spring Boot

Other Skills:

- RESTful Web Services
- Basics of cryptography
- Basics of cryptocurrency and Bitcoin
- Deep Learning
- Basic Authentication Strategies
- Agile Methodology
- Micro-service Architecture

RESPONSIBILITIES:

- Former Executive member
 - Organization of KUET sports, KUET
- Former Assistant Organizing Secretary
 - o KUET math club, KUET
- Former Member
 - SGIPC, KUET Special group interested in programming contest.

CAREER OBJECTIVES:

Having the background of Competitive Programming and some Deep Learning based research experience, I am a fast learner of new things and used to with solving challenging problems. I am also careful about my academics. I am ready to accept new challenges, work with cutting edge technologies and use my expertise and experience to innovate and contribute to the industry.

WORK EXPERIENCE:

Graduate Engineer

Kona Software Lab Limited

Apr. 2022 - Present.

- Part of backend development team working on a cryptocurrency trading website
- Working with technologies such as JAVA, Spring Boot, PostgreSQL, DataGrip, Intellij, Gradle, Git etc.
- Following agile methodology.

EDUCATION:

Khulna University of Engineering & Technology
B.Sc. in Computer Science and Engineering
Feb. 2017 - Mar 2022.

CONTESTS & ACHIEVEMENTS:

Programming Contests

- Intra Kuet programming contest 2020, Khulna, Bangladesh. Best performer from 2k16 batch. ID: Nieb Hasan Neom
- Intra Kuet programming contest 2019, Khulna, Bangladesh. Rank: 10 ID: NAN
- Ignition Programming Contest 2018.
- More 1+ Onsite and 200+ Online Contests

Problem Solving

- Solved 1000+ programming problems
- Codeforces: Nieb Hasan 077, Solve: 550+, Max Rating: 1629 (Expert)
- UVa: Nieb Hasan 077, Solve: 140+
- Codechef: Nieb Hasan 077, Solve: 70+, Max Rating: 1819 (4*)
- Leetcode: Nieb Hasan 077, Solve: 50+, Max Rating: 1641
- Stopstalk: Nieb Hasan 077

Other achievements

- Research Paper: A Review on Fall Detection Systems Using Data from Smartphone Sensors.
- 1st runner up in math quiz arranged by Math club, KUET.

MAJOR PROJECTS:

 Undergraduate Thesis: Bangla Sign Language Recognition Using Deep Learning. Deep Learning, CNN, Python, Tensorflow, OpenCV

Proposed a Hybrid Transfer Learning based CNN model with RandomForest classifier to classify Bangla sign characters and digits from Images.

DiceRoll AndroidStudio, Kotlin github

This is a simple Android app that can perform dice roll by clicking on a button.

• CatchTheBall CodeBlocks, C++, OpenGL github

A graphical game to catch the balls falling from top by moving a basket.

• SalaryManager PLSQL, SQLite github

A project on salary management of an organization for database management system course.

FUN++ CodeBlocks, Bison, C github

A compiler that can compile and run a dummy programming language. A simple project on compiler design course.
